XIN CHEN

Ph.D. Candidate in Electrical Engineering
School of Enginnering and Applied Sciences
Harvard University

33 Oxford st, Maxwell-Dworkin, Cambridge, MA
Email: chen_xin@g.harvard.edu
Phone:16172304237

Education

Since Sept. 2017	Ph.D. in Engineering Science at School of Engineering and Applied Science Harvard University Advisor: Prof. Na (Lina) Li
Sept. 2015 - July 2017	M.S. in Electrical Engineering at Department of Electrical Engineering Tsinghua University, China Advisor: Prof. Wenchuan Wu and Prof. Boming Zhang
Sept. 2012 - July 2015	B.A. in Economics at School of Economics and Management Tsinghua University, China
Sept. 2011 - July 2015	B.S. at Department of Engineering Physics (Energy Experimental Class) Tsinghua University, China Advisor: Prof. Hongbin Sun

Selected Honors and Awards

2019	Award of Distinction in Teaching, Harvard University
2018	Best Student Paper Award Finalist in 2nd IEEE Conference on Control Technology and Applications
2017	Excellent Master Graduate, Tsinghua University, China
2017	Outstanding Master Thesis Award, Tsinghua University, China
2016	Best Conference Paper Award in IEEE PES General Meeting
2010	National Chemistry Olympiad Competition, 1st prize in Jiangxi Province, China

Publications

[10] **X. Chen**, C. Zhao and N. Li, "Distributed Automatic Load-frequency Control with Optimality in Power Systems," submitted to IEEE Transactions on Control of Network Systems.

Chapter in Book

[1] **X. Chen** and W. Wu, "Network Reconfiguration and Restoration Control for Active Distribution Networks," chapter in Active Distribution Networks Analysis, Operation and Control (in Chinese), Science Press, China, Sept. 2016.

Participated Projects

Since 01/2019	NSF: Eager: Real-Time: Learning, Selection, and Control in Residential Demand Response for Grid Reliability, US.
Since 09/2017	ARPA-E NODES: Real-time optimization and control of next-generation, leaded by National Renewable Energy Laboratory, US.
10/2015 - 02/2017	National Key Research Project: Clustering and coordination control techniques for high penetration of distributed generation, China.
09/2014-12/2015	Guizhou Province Science and Technology Major Project: Key techniques development and demonstration for intelligent decision and analysis systems of urban and rural distribution networks, China.

Invited Presentations

- "Distributed Automatic Load-Frequency Control in Power Systems", in 2nd IEEE Conference on Control Technology and Applications, Copenhagen, Demark, Aug. 2018.
- "Robust Restoration Approach for Active Distribution Network Based on Scenario Techniques", in Best Conference Paper session, 2016 IEEE PES General Meeting, Boston, U.S., July 2016.

Professional Services

- Reviewer for Journals: IEEE Transactions on Smart Grid, IEEE Transactions on Power Systems, IEEE Transactions on Automatic Control, IET Generation, Transmission & Distribution, CSEE Journal of Power and Energy Systems, Systems & Control Letters.
- Reviewer for Conferences: IEEE Conference on Decision and Control, IEEE Conference on Control Technology and Applications, IEEE International Conference on SmartGridComm, IEEE PES General Meeting, L4DC Conference, European Control Conference, American Control Conference.

Teaching

- (2018 Fall & 2019 Fall) Teaching Fellow for Course "ES 155: Systems and Control", Harvard University.
